Makenna Peters

Full-Stack Software Engineer · Fargo, ND (remote)
makennaipeters@gmail.com · LinkedIn · GitHub

SUMMARY

Full-stack software engineer with 5+ years of experience building and maintaining scalable SaaS web applications using Ruby on Rails, React, JavaScript and PostgreSQL, with additional experience in Python/Django. Experienced in developing CMS platforms and internal tools, working in Agile environments, collaborating across cross-functional teams, and supporting production applications used by thousands of users. A fast learner who adapts quickly to new technologies, frameworks and environments.

EXPERIENCE

Finalsite, remote from Fargo, ND
Software Engineer II Mar 2024 – May 2026
Software Engineer I Mar 2022 – Mar 2024

- Developed full-stack features for Composer, Finalsite's CMS platform used by thousands of K-12 schools, across modern Ruby on Rails services and legacy ColdFusion applications
- Implemented frontend features using React, JavaScript, Backbone/Marionette and jQuery, improving CMS usability and administrative workflows
- Built and enhanced backend functionality and RESTful APIs using Ruby on Rails and PostgreSQL to support content publishing, permissions management and administrative workflows
- Led end-to-end development of key platform initiatives, including a reCAPTCHA integration for form security and a self-service tool for migrating legacy calendar workflows
- Created and maintained unit and integration tests using RSpec and Jasmine, improving reliability and supporting CI/CD workflows
- Participated in Agile/Scrum: backlog refinement, story estimation, sprint planning and cross-functional collaboration
- Monitored and resolved production issues using Google Cloud Platform, New Relic and DataDog, improving stability and performance

PS Industries, Grand Forks, ND
Computer Science Intern May 2020 – Jun 2021

- Developed full-stack web applications using Python, Django, JavaScript, HTML/CSS and jQuery to support internal business operations
- Independently built internal tools, including an employee time-tracking system and an HR workflow application for job position requests

EDUCATION

***B.S. Computer Science**, University of North Dakota* 2017 – 2021

GPA 4.0/4.0 · Minor in Mathematics
